## DEFINITIONS

Our bonus plan is not only generous and rewarding, but more importantly, it's easy to understand. Here are a few key definitions:

**Personal Volume (PV)** - The volume generated from product subscriptions that you personally sell. Each of our product subscriptions has a PV value assigned to it. Your personal subscription counts toward your personal volume.

**Group Volume (GV)** - The total volume generated by everyone in your group including your personal subscription volume.

**Qualified Group Volume (QGV)** - The total volume generated by you and your group after the leg max rules have been applied. QGV is used to determine your rank and Wealth Club Bonus.

**Leg** - A leg is a branch of your organization.

**Leg Max** - You can count either 35% or 40% of the required GV from a single leg.

**Commission Eligible** - A distributor must generate 400 PV during a month and have 3 active personally enrolled subscribers to be commission eligible.

**Placement Tree** - The structural representation of your organization. All Wealth Club Bonuses are calculated using placement tree organization QGV.

**Waiting Room** - You are allowed to place people within your organization within 30 days of their join date. All new subscribers will automatically go into your waiting room and may be placed anywhere in your Placement Tree within 30 days of their join date.

**Product Credit** - Dollar amount credited to customers and distributors for achievements such as becoming a Guaranteed Generator.

**Paid Rank** - The most recent Wealth Club rank earned by a distributor.

**Lifetime Rank** - The highest lifetime Wealth Club rank earned by a distributor.

**Carryover** - WG does not pay less than \$25 USD. Bonus amounts lower than \$25 USD will carryover until an amount greater than \$25 USD has been earned.

**Bonus Plan Cap** - The bonus plan is capped at a maximum payout of 70% of company GV. If cap is reached, an adjustment to the Wealth Club Bonus will be made at company's discretion.

## GUARANTEED GENERATOR

Wealth Generators wants everyone to use and share our products with others and that's why we created the Guaranteed Generator program.

When you generate **400 personal volume monthly and have 3 active personally enrolled subscribers, you receive a product credit bonus** equal to your monthly subscription cost!

- If you do not have a personal subscription, you will receive a product credit in the amount equal to the price of your most recent order or in the amount equal to the least expensive available product pack.
- If you have more than one subscription, you will receive a commission credit in the amount equal to your most expensive monthly subscription price.

The product credits received to cover personal subscription amounts are only received by Guaranteed Generators. For all Wealth Club bonuses, the payout amount includes the product credit to cover monthly subscription costs (see example below).

**Example** - In January, you achieve 400 in PV and have 3 active personally enrolled subscribers. Your subscription of \$199.99 will be credited for the month of February. Let's assume you achieve 1300 QGV for February. Your commissions for February (Paid on or around March 15th) would be \$500 (\$199.99 product credit + \$300 = \$500 Wealth Club Bonus).

DISCLAIMER: Your participation and achievement is based on the products you sell, and your ability to train others. It should not be considered a method to get rich quick. Participation in the Wealth Generators Bonus Plan is completely optional.

## WEALTH CLUB BONUS

As you and your team sell product subscriptions, and as you generate group volume, you may achieve a monthly Wealth Club Bonus. Each Wealth Club bonus has a corresponding rank name to distinguish the accomplishment.

Each Wealth Club Bonus earned replaces the previous Wealth Club Bonus (if any).

Wealth Club Bonuses are calculated on the placement tree QGV.

Wealth Club Bonuses are paid on or around the 15th of the following month in which the bonus was earned.

RANK	PV	QGV	MAX VOLUME FROM ONE LEG	WEALTH CLUB BONUS
Guaranteed Generator	400	400	35% = 140	**product credit
